

ENDORSEMENT BY OUR TEAMS EXTERNALLY ON LINKEDIN

I am so proud to work for Greene King!

The way the senior leadership team have led us through the most challenging fortnight we've known and the way all the teams across the business have responded has been amazing to be a part off.

[#wecare](#) [#wetakeownership](#)

We'll come back stronger and be unstoppable. 💪

For now though cheers 🍻

I don't usually share posts like this but as today is so surreal, there are a few things I would like to say. Firstly, a huge thank you to Nick Mackenzie and our incredible exec board for keeping us all well informed and motivated during this unsettling time. Secondly, a personal thank you to the communications and PR & Social teams, you really are some of the most inspirational people I've ever had the pleasure of working with. Finally, I'm so proud to be a member of the Greene King family and until our pubs are open again, I will be doing my bit by staying at home and consuming lots of Greene King IPA.

[#GreeneKing](#) 🍻

As we all enter into very uncertain times and everyone is adjusting to how we need to live for the foreseeable future, I need to give MASSIVE credit to everyone at Greene King. We sometimes all forget the huge job our owners, board and exec have during times like this but we are getting daily updates, questions answered as quickly as they can, EVERYONE looking out for each other and it makes you smile and feel really assured that the company you work for are trying their best for you during these troubled times knowing you work for a very special company who REALLY CARE. I do hope all everyone and their families and friends stay safe and healthy as we work through this situation.

Let's all stick together, check in, even if it's to say "hello"

Greene King
4d •

I'm not really one for posting anything usually, so I'm going to make it honest and worth it.

Over the years Greene King have made a lot of mistakes.

On occasions we've been unfair to our colleagues, upset our customers and frequently been viewed negatively by the industry.

12 months ago things changed.

Everyone that's been here over that period has genuinely felt a significant cultural shift and as horrible as the current situation is, this man and our current exec team have created a blueprint all businesses should aspire to.

When this is all over and you fancy a pint or are looking for a career change, these doors are open.

[#wecare](#)

Never been prouder to work for Greene King. The way they have handled this crisis is exceptional.

[#greeneking](#) [#work](#) [#crisis](#)

Thank you Greene King leadership for the way you are handling the current CV situation. If anybody every wants to know how to conduct yourself in a crisis look no further than the mighty GK. Every update has had people at the heart of it, very proud of this brilliant company I work for.
